

2ND - EDITION DIATECH'26

**ONE-DAY CONFERENCE ON DIABETES &
WORKSHOP ON AI FOR DOCTORS**

SUNDAY | NOV 15 | 2026

JOYS PALACE, THRISSUR, KERALA

THEME

**Technology-Driven Diabetes Management:
From Early Detection to Intelligent Care**

ABOUT DIATECH

DIATECH is a focused medical conference bringing together diabetologists, physicians, researchers, healthcare professionals and technology experts to explore the evolving landscape of diabetes care.

Following the success of its first edition, DIATECH'26 returns with a practical, clinically relevant programme covering early detection, advanced diagnostics, continuous glucose monitoring, diabetic kidney and liver complications, Type 1 & Type 2 diabetes, diabetic foot care and the growing role of AI in healthcare.

The conference is designed to move beyond conventional diabetes management and explore how technology, data and artificial intelligence can support better clinical decisions and improve patient outcomes.
